

Even Tone Correcting Serum™ FACE

Even Tone Correcting Serum, featuring the patented b.r.y.t. complex by skin**better**®, is a ground-breaking, **non-hydroquinone, non-retinol**, multi-action skin tone corrector that delivers a dramatic reduction in the appearance of hyperpigmentation.

FEATURES & BENEFITS

- Patented complex provides a comprehensive approach to the appearance of pigment, all while supporting overall skin vitality
- Brings together an optimal blend of multi-functional ingredients that fight the look of pigment while also combating underlying causes
- Brightens and improves the appearance of yellowing that often accompanies the look of hyperpigmentation in certain skin types
- Remarkable improvement in the appearance of fine lines and wrinkles and skin texture, for an overall improvement in the skin's appearance

HOW TO USE

- For all skin types
- Apply a thin layer morning and evening to the face, neck and décolleté
- For brown patches, sun damage and the appearance of hyperpigmentation and discoloration
- Amplify results by pairing Even Tone Correcting Serum with award-winning AlphaRet® Overnight Cream
- Regimen available as part of the Skin Rejuvenating Trio, featuring Oxygen Infusion Wash, Even Tone Correcting Serum and AlphaRet Overnight Cream
