

AlphaRet® Exfoliating Peel Pads

CUSTOMIZE YOUR PATIENTS' AT-HOME EXFOLIATION SKINCARE REGIMEN

This patented triple-acid formulation utilizes the benefits of lactic acid, glycolic acid and salicylic acid, enhanced with our patented AlphaRet technology to reveal smoother, softer and more even-looking skin.

INTENDED FOR

Exfoliation, improvement in the appearance of skin smoothness, clarity, and lines and wrinkles when used as part of a skin**better** science regimen.

BENEFITS

- Proprietary combination of AlphaRet and a triple-acid complex (lactic, glycolic, salicylic) provides additional exfoliation and skin rejuvenation benefits.
- Improves the appearance of skin imperfections.
- Reduces the appearance of fine lines and wrinkles, pores and rough patches.
- Supports exfoliation and removes the outer layer of dead skin to help prevent clogged pores.
- Lactic Acid moisturizes while exfoliating to support hyaluronic acid.

USE

- PM / Up to three times per week

KEY INGREDIENTS

AlphaRet: Patented ingredient that combines a retinoid and lactic acid, to create a revolutionary double-conjugated retinoid.

Lactic Acid: Promotes exfoliation while providing moisturization.

Glycolic Acid: Promotes exfoliation.

Salicylic Acid: A beta hydroxy acid helps unclog and reduce the appearance of pores.

Sunburn Alert: This product contains alpha hydroxy acids (AHAs) that may increase your skin's sensitivity to the sun and particularly the possibility of sunburn. Use a sunscreen, wear protective clothing, and limit sun exposure while using this product and for a week afterwards.
