CONCIERGE MEDICINE

COVID19 UPDATE from Governor - 03/17/20

Dear Health4life Family,

As of March 17, 2020 at 7:43 pm, Gov. Steve Sisolak significantly ramped up Nevada's response to COVID-19 by announcing a statewide closure of all casinos, restaurants, bars and other nonessential businesses for 30 days, and he urged Nevadans to stay inside to reduce their chance of becoming infected and spreading the virus. The businesses that will be allowed to stay open include grocery stores, gas stations, medical offices, banks and other financial services, Sisolak said. Restaurants that can provide delivery, drive-through, pick-up or curbside service will also be allowed to stay open, but no sit-down dining will be allowed. Only essential businesses should remain open, such as pharmacies grocery stores, drug and convenience stores, banks and financial institutions, hardware stores and gas stations.

Health4life will CONTINUE to remain OPEN as we are included in 'Essential Businesses'. We are doing everything we can to keep our team and patients healthy. As we previously mentioned, we are limiting in-person visits to help keep people home and healthy. The only patients who will be seen in the office are those who are sick and need our help and other cases as they present. AGAIN, we are here for you through phone calls, texts, emails and in-person visits as needed! Please communicate with us so we can provide any guidance you may need.
